To change between Celsius and Fahrenheit readings, hold the POWER button for 2 seconds until the “Lo” with an “m” displays and changes between °F and °C. To turn the thermometer off, press the POWER button again to activate the thermometer. The thermometer will beep when the peak temperature has been reached, the °C will continue to flash during the reading of the temperature. When the temperature temperature has been reached, the °C will stop flashing and the thermometer will sound ten sets of three short beeps each. To turn the unit off, press the POWER button. The unit will automatically power down after approximately nine minutes.

Taking an Oral Temperature
